In the Specification:

In reference to the amendments to Table 6A made herein to the specification, underlined additions replace previous numbers.

Table 6A on page 22, line 1, has been deleted.

New Table 6A has been added on page 22, before line 3.

In the Claims:

Claims 4 to 8 have been cancelled.

Claims 9 and 10 are new.

REMARKS

This invention is a divisional application claiming benefit of priority from U.S. Patent Application Serial No. 10/151,517 (the "U.S. '517 Appln."), filed May 2002, which is a divisional application of U.S. Patent Application Serial No. 09/706,474 filed November 3, 2000.

IN THE SPECIFICATION

The specification has been amended to correct an inadvertent typographical error that was set forth originally in parent application, U.S. Appln. 09/706,474 ("U.S. '474 Appln.") filed November 3, 2000 from which the current divisional application claims priority.

In the parent U.S. '474 Appln., Table 6A (at page 22, starting at line 1), inadvertently repeats the same numerical data values from Table 6 (at page 21, starting at line 6). However, the language of the originally filed specification supports the fact that Table 6 and Table 6A were included to indicate different data results. Table 6A was directed to "the affect of development temperature and bromide concentration", while Table 6 was directed to "red record contrasts for processing film."

Table 6A now recites numerical data points that correlate with the written description of the text (on page 21, lines 14-17 and page 22, lines 3-8), which provides basis to support data points that are directed to "speed for each developed color record at a point characteristic curve that is 0.15 above D-min."

IN THE CLAIMS

Pending claims 1-3 in the current application are directed to the non-elected invention of the co-pending U.S. '517 Appln. Claims 4-8 are cancelled. In the current application, new claims 9 and 10 have been added.

CONCLUSION

Early allowance of the pending claims is hereby earnestly solicited.

Attached hereto is a marked up version of the changes made to the claims by the current amendment. The attached page(s) is captioned "Version With Markings To Show Changes Made."
